

THE DAILY BULLETIN.
SATURDAY EVE, SEPT. 6, 1884.

The Democrats will have a majority in the Arkansas Legislature.

The New York Republican State Committee in its extremity has called upon Blaine to stamp the State.

BARRETT, WATERS & LEWIS, wholesale dealers in wood and hardware, at Cincinnati, have failed in business.

A TRUE AMERICAN sentiment recognizes the dignity of labor, and the fact that honor lies in honest, contented labor is an element of national prosperity.

Grover Cleveland.

JUDGE FOLGER, Secretary of the Treasury, died suddenly at Geneva, N. Y., on Thursday. It is thought at Washington that Charles E. Coon, Assistant Secretary, will be appointed in his place.

The vote for Morrow for Governor in this congressional district at the election last year, was 11,185. This makes the representation in the Republican Convention Tuesday 112 votes. Fifty-seven votes will be required to nominate.

REPUBLICAN candidates who are hoping to be struck by the Congressional lighting next week, are kindly advised to take down the lightning rod and carry a buckeye in their pockets. It was a Buckeye, you know, that was hit at Catlettburg recently.

The Cincinnati Evening Post remarks: Maria Halpin and Harriet Stanwood have about finished their parts in the presidential campaign, and now the real issues will be given a chance. Tariff reform, civil service, and official honesty can now be discussed.

SAYS THE NEW YORK HERALD: One of the most awkward inquiries often made of the friends of Blaine is, how did he become rich? He was poor but little more than twenty years ago; he has been in politics all the time since and not in business, and if he did not help himself "on the ground floor" in speculative enterprises where did the money come from? It was made, says his friends, through the lucky investments in Pennsylvania coal lands. Hereupon the Pittsburg Post has instituted an inquiry. It finds that Blaine owns coal lands in Pennsylvania assessed at a valuation of \$76,100, comparatively unproductive, but which worked would give him an income of \$160 a year. How many years would it take to get a million out of that?

THE COVINGTON COMMONWEALTH says: The Commonwealth is in possession of information, from undoubted authority, which enables it to settle the controverted question.

James G. Blaine was married in Pittsburg, Pa., in March, 1851. The marriage was a secret one. In Pennsylvania at that day no license was required, and there is consequently no public record of the event; but the Presbyterian minister who performed the ceremony made a memorandum, and that memorandum is in existence.

As we have said, Blaine was married in March, 1851. His first child was born in August, Maine, in June, 1851. The child died in the course of that year. The stone over its grave, which stated the time of its birth and death, has recently been defaced by the erasure of a figure. By whom that was done and for what purpose, will probably be shown by the defendant in the libel suit at Indianapolis.

Taxes and Labour.

The Harrisburg (Pa.) Patriot says: The Republican party opposes a reduction of the taxes which burden the industry of the country.

Its candidate for President, in his letter of acceptance, defends the policy of keeping up unnecessary taxes.

In a letter published within the last two years Mr. Blaine advocated the distribution of the surplus revenues among the several States.

It is incredible that any sensible workingman, any intelligent farmer, mechanic or tradesman, is willing to contribute to the success of a party or a candidate whose principles and aims are so inimical to the common interests of the people.

Nearly if not quite a hundred millions of unnecessary taxes are annually wrung from the people of the United States and these taxes come out of the pockets of the consumers, including, of course, every workingman in the land.

How long can the country stand this terrible drain? How long will the people be able to endure this fearful draft upon their resources?

Already a financial crisis threatens. The list of bankrupts is being swelled every day. The wages of labor are forced down in order that capital may endure. Shall this stupid and miserable policy be continued? If not, then James G. Blaine must be defeated, and the sooner the toiling millions set about the work of defeating him the better it will be for themselves and their country.

"POOR LITTLE BEBE."
She Has Lost All Faith in Her Husband—
some Young Husband.

NEW YORK, Sept. 6.—Tired-looking and pale, but alacrity, as a picture, Miss Minnie, the young, comely daughter who has come to New York to marry to H. C. De Wolfe, a young man of fortune, is now in jail in Montreal for bigamy and forgery, came down to the parlor of a cosy little house in the upper suburb of New York yesterday, to tell a reporter the story of her wrongs, and to implore the services of De Wolfe. It was only with a great effort that she summoned up courage and strength enough to tell her story.

"I first met Mr. De Wolfe," she said, "during the summer of 1882, at the home of Miss Alice Hawley in West Twenty-second street, where he came to call while I was there. He was very handsome, and talked wonderfully well. I became interested in him then, and especially so, because I was attracted by him. After we met on several occasions and he paid marked attention to me, sending and bringing flowers at the theater, in which I was singing in Brooklyn, and afterward at the Cooper Union, he invited me to his room, and there, of course, we passed the night. From the first I understood that he was married, but had been divorced, and when he finally asked me to marry him I consented, for I imagined there was nothing in the way. So, to my great surprise, I found that he could possibly interfere with our union. I loved him and I know how he returned my affection. And here let me say that up to the time I arrived in New York yesterday morning I never dreamed of being in anything wrong, except him, except the cause of his arrest in Montreal, and it was solely for the purpose of helping him out that I left him and came on here. I had always supposed it to be right and proper to marry a man who had been a rich man without a man a million. So H. C. De Wolfe had always told me and my friends. He never seemed to lack for money and spent it lavishly. I don't know exactly what I shall do. I am a complete fool, and I have given up all my worldly disbursements, and I am now a pauper except the money I have in my pocket. I hardly think of anything."

Miss Vining, her sister, Miss Jamie Gray and her little friends seem to unite in blaming Mr. De Wolfe for the whole of the unfortunate affair. Mr. Horner, the lawyer, who was too early yesterday morning, but that young lady refused to see him, saying that she was too sick to see anyone. A stormy interview, however, occurred between Miss Vining and Mr. De Wolfe, and he went away, the former, in a very bewildered state of mind indeed. Mr. Henruegens, the father of De Wolfe's first wife, called on Miss Vining yesterday and expressed his entire sympathy with her in her trouble. He is anxious to avoid publicity, and will probably take no steps to expose the punishment of his son-in-law.

He is continuing a search for De Wolfe, who is in Montreal, and Miss Vining. He wrote very penitently, saying that he had no intention of doing any harm by marrying her, and hoped that she would forgive him. Late in the afternoon the young actress and her friends went with an interest to the latter's home, a little way up the Hudson, so that "Dear Bert" would be bothered as little as possible by ingenuous visitors.

FIGHT WITH HIGHWAYMEN.

On the Robbers SPARE Second in Pursuit.

ST. LOUIS, Sept. 6.—Charles Gissane and William Dunby, farmers, on their way from St. Charles to the city, were held up by Bill Ostrander and two companions Wednesday night, robbed of a sum of money and then compelled to walk home. They were followed by a party of men who had been sent to intercept them, and were met with an interest to see the two farmers walk home to their home, a little way up the Hudson, so that "Dear Bert" would be bothered as little as possible by ingenuous visitors.

THE MINNEAPOLIS MILLS

Falling Off in the Weekly Production of Flour.

A Very Good Demand for Flour, but Buyers are Clamoring for Lower Prices, Wanting to Pay Less With Each Order.

MINNEAPOLIS, Minn., Sept. 3.—The Northwestern Miller Friday says: It has been a good many years since so little flour was made on the falls as will be the case this week. Out of the twenty-two wheat mills, with a daily capacity of 1,000 barrels, only two are in operation, turning out less than 5,000 barrels per day. The occasion for the twenty mills being shut down together is the clearing of the canal. Still canals are being dug all the week, and the two mills running is that they are on the east side of the river. The flour production of last week was 104,700 barrels, averaging 17,450 barrels per day, against 86,700 barrels the preceding week. The mills are not yet ready to start up Monday, when the water is let into the canal. There is a very good demand for flour, but the mills are not yet ready to start up, and with each order wait to pay less and millers are not looking into the future with very bright hopes. The following were the receipts at and shipments from Minneapolis for the weeks ending on the dates given:

	Sept. 2	Aug. 26	Aug. 19

HE GOT AWAY

By Jumping Into the Deshabille.

CHICAGO, Sept. 3.—James M. Gamble, one of the most successful men in the country who represents millions of outside capital, was found in an alley at the side of the house 48½ Congress street at 8 o'clock this morning.

He was on deshabille, his face terribly cut and one leg broken. To the police who came to the scene of the accident, Mr. Gamble said he had leaped out of the third-story window, had caught on the telephone wires and fallen to the ground. He offered no explanation. It is not known if he was the victim of a mugging or a police raid, and an alleged "injured husband." But it turns out that the couple were on their way to another flat in the same house to arrest the brother of a prominent merchant. Gamble is in a precarious condition.

ELIA WATSON'S MURDERER.

Evidence that the Real Criminal Has at Least Been Caught.

SALIN, N. J., Sept. 6.—Howard Sullivan, a negro driver for a Salem farmer, has been traced as the murderer of Miss Elia Watson, which occurred some weeks ago, by means of a recent tip-off from a police officer. The knife two days ago the murderer of the little boy and the nick of the blade fitting the marks in the freshly cut sapling with which the girl was killed, and the nail and breaks in the wood, which were probably fitting the marks beside the scene of the murder, the proof was considered complete. The production of the knife, the tremor of the murderer as he identified it, and his confessions of execution and conduct before the Justice and the public in the criminal's office. The other negroes in custody who were thereby exculpated are among the most interested of the spectators.

The cause is unknown. Lydia had a wife and a son. The two men at the hotel, a City boy and a girl, took a room. The photographs were held in the room this morning.
